## TARGET AUDIENCE

Brain injured survivors, their families, students, healthcare professionals, attorneys and educators.

## OBJECTIVES

Upon completion of this conference, the participant will be able to:

1. Describe the three roads (levels) of care - acute, sub-acute, and post-acute - available to travel in order to maximize functioning of the brain injured survivor
2. Explain the health care needs, as revealed by recent brain injury research and technology development, of the brain injured survivor and provide appropriate community resources to address them.
3. Evaluate the effectiveness of support groups, community agencies, professionals in the health, social service rehabilitation, legal and other related practices and major brain injury focused organizations in facilitating injury prevention and/or the progress toward maximum wellness for brain injured survivors and their families.

- ⇒ Participants may attend sessions on different tracks.
- ⇒ Survivors and family members are eligible to win door prizes after each session.

## KEYNOTE SPEAKER

**Gerald V. Klim, D.O. M.A.**  
**Cardinal Hill Rehabilitation Hospital**

Dr. Klim has developed and supervised multiple programs in rehabilitation facilities, sub-acute programs, and long-term, and long-term facilities. He has served as medical director of the Cardinal Hill Rehabilitation Hospital for more than 15 years. He is currently incorporating hospice, palliative care, and end-of-life care into the curriculum development in rehabilitation services and training programs. Dr. Klim received his M.A. in religion and will be ordained as a diaconal minister in the Evangelical Lutheran Church in America this year.

## CONTINUING EDUCATION CREDITS
